- Email Kelli at [krunyon@decaturindustrial.com](mailto:krunyon@decaturindustrial.com)
- Call 217-428-6621 and ask for Kelli

One of the most important factors to consider when repairing motors is to understand why they failed. This seminar will focus on common as well as unusual types of failures broken down by components. This class is intended for anyone interested in understanding motor failures & addressing the root cause of failure rather than the symptom.

**No PO needed until 2018!**

**Reservations cancelled after February 19, 2018 will not be issued a refund.**

**Jim Bryan, EASA Instructor**

Jim Bryan is a technical support specialist with the Electrical Apparatus Service Association (EASA). Before joining EASA, Bryan worked for more than 20 years at Emerson Motor Company (Nidec Corporation) in St. Louis
