

DECATUR INDUSTRIAL ELECTRIC

LIVE VIRTUAL EXPERIENCE

Save time while verifying critical equipment.

Need to witness a critical motor load testing?
Need performance verification?
Need to observe a disassembly inspection?

With new state of the art virtual equipment, customers can choose to witness remotely in real time at our Decatur, IL service center.

Be Anywhere. In Your Facility. At Your Desk.

- ▶ Up to five live cameras visible on one screen
- ▶ No limit to how many customer representatives can attend a virtual witness
- ▶ Ability to zoom in for closer inspection with camera zoom
- ▶ Communicate and ask questions verbally or through chat feature
- ▶ Save time and money by eliminating travel costs and out-of-office time

Closer inspection of readings
with camera zoom

OUR NEW VIRTUAL WITNESS TESTING FOLLOWS THE SAME PROCEDURE AS A TRADITIONAL, IN-PERSON TEST WITHOUT NEEDING TO LEAVE YOUR FACILITY.

Test Center Virtual Witness Options:

- 1. Basic Witness Test
- 2. Complete Test to meet ANSI/EASA AR100, NEMA MG 1, and IEEE 112
- 3. Complete Inspection & Test to Meet the NEMA ANSI/NETA ATS-2017

All test options above include a review of job pictures. Plus, review of equipment failure autopsy notes, remanufacturing work scope performed, test results, and witness test run including voltage, amperage, temperatures, and vibration.

Depending on the unit, a motor *can be* witness tested under a load.

Per hour and custom pricing available based on customer need and specifications.
