- Tell your D.I.E. Account Manager to "Sign me up!"
- Email [rsvp@decaturindustrial.com](mailto:rsvp@decaturindustrial.com)

One of the most important factors to consider when repairing motors is to understand why they failed. This seminar will focus on common as well as unusual types of failures broken down by components. This class is intended for anyone interested in understanding motor failures & addressing the root cause of failure rather than the symptom.

Reservations cancelled after February 20, 2023 will not be issued a refund.

Tom Bishop, EASA Instructor, Senior Technical Support Specialist
